Subsidence Claims
50m buffer report

Full picture of subsidence claims in the area
Managing coal mining subsidence claims is part of the Coal Authority's statutory obligations. Get a comprehensive view of subsidence claims within a 50m area to assist when handling property transactions.

What does it cover?
- address of properties with a claim
- value of compensation works carried out
- the date the claim was made
- distance from the subject boundary
- status of the claim (accepted or rejected)

Why you need it
This follow on report provides further information on claims to ensure a better understanding of the impacts of past mining in the wider area surrounding the property.
