# Mine Gas emissions report

## Unique insight into a mine gas liability site

Managing coal mine gas liabilities is part of the Coal Authority's statutory obligations. We can provide expert insight on mine gas liability sites or mine gas incidents that we have treated, featuring a bespoke report from our mine gas experts.

## What does it cover?

detailed report on mine  
gas issue at location

reasons for monitoring  
installation

site details, including  
plan

photos of the site

details of measures  
used to manage gas

results of the gas  
monitoring

## Why you need it

If a property has been subject to a coal mine gas issue treated by the Coal Authority, this follow on report provides invaluable, site specific details - delivering peace of mind by providing information on our expert mine gas management regime.

## Why we're great to work with

- since 1994, the Coal Authority has managed the effects of past coal mining on behalf of the Government to protect the public and the environment, giving us our trusted heritage and knowledge of the coal mining industry
- we're recognised by major lenders as a leading and trusted provider of coal mining search reports
- our dedicated in house teams are on hand to support you with any questions you may have before, during and after purchasing a report
- access to our in house specialists means that we can provide dedicated support to conveyancers, geotechnical and environmental consultants, search providers and homebuyers direct

## How to make an enquiry

If you have any questions or would like to find out more about our Coal Mining Risk Assessments, please contact us to speak to a member of our team using the details below.

## Other services you may be interested in

We offer a wide range of products and services to support developer decisions in relation to land selection and property purchases. Contact us to find out more.

## Why choose the Coal Authority

- bespoke, technical advice tailored to your development
- support available throughout your development project
- assistance for any site on the coalfield
